2023/2024 SESSION REGISTRATION GUIDELINES

This is a simple guide to aid your registration on the course registration portal

VERSION 2.0

GUIDELINES FOR REGISTRATION

Please read the Guidelines Carefully as the Instructions here will help during course Registration. The full list of courses by code and title in each Department is also attached for guidance.

COURSE REGISTRATION GUIDELINE

A simplified guideline is available for Learners in the available departments to ease registration process for Learners by knowing the requirements for their departments and level. It is important to note that it is a simple guide to aid your registration **that should be used with the information on course registration portal.**

Courses are divided into categories:

- **Compulsory/Core Courses [C]** - These are courses that are compulsory for Learners to register in a department by level. All core courses are to be registered for (*except in cases where there might be exemptions of some courses in this category by the department*).
- **Required Courses [R]** - These are the courses that are required by Learners to be registered (*except in cases where there might be exemptions of some courses in this category by the department*). **Required courses MUST be taken but not necessarily passed. However the departments determine the minimum score expected in order for the learner to “move on”**
- **Departmental Elective Courses [DE]** - These are courses that are Optional to the department of a Learner. Departmental Electives might be waived for registration in most cases (except in cases where departments require their Learners to register them – but the required number of units to be registered under this category is usually low.
- **External Elective Courses [EE]/Subsidiary Courses** - These are courses that are outside the Learner’s department (*they are **Compulsory /Required/ Electives** of other departments aside the Learner’s primary department*) that are required to complement the Compulsory, Required and Departmental Electives of the original department.
- **Teaching Subject [TS]**- This is only available in the Faculty of Education. Starting 200 Level Learners will be able to register teaching subjects (which are specified subject areas – this will be determined by the admissions office. Once this has been determined, Learners will be able to register their teaching subject courses in line with approved “teaching subject area”.

*****Please pay attention to your teaching subject area and course code you will have to register for the teaching subject Category. *****
